

From what I understand, the FCC is considering replacing the FM translator service with the Low Power FM.

Please note that by doing so, you will affect the ability for me to hear the station, KLOVE. As a Christian and a responsible citizen of Greenwood Village, CO, this would greatly impact the quality of life for me and the community around me. KLOVE offers positive, wholesome programming that is safe for families and children. KLOVE serves the people of the Metro Denver area by providing alternatives to the negative programming that is already out in the market.

Please keep KLOVE on the air!!! By not doing so, it is a detriment to our children and to our communities.

Thank you for your consideration.
Marcie Morris
